
Customer Programs Enrollment Center

-Solution Framework

Agenda

Customer Programs Enrollment Center (EC) Framework

- Use Enrollment Center, for all scenarios, Move-In , Change Contracts. (for the existing customers)
- Contract Management integration w/ Enrollment Center (Move-In only).

Enrollment Center screen has four main component

- Participating program
- Available program
- Eligibility Messages
- Program History

Enrollment Center

Participating Programs

Program	Action	Status	Enrollment Requested Date	Enrollment Date
Peak Time Rebate	De-Enroll	Pending	01/05/2016	

Available Programs

Program	Action
Critical Peak Price	Ineligible
Customer Selects Due Date	Enroll
Pre-Pay	Ineligible

Eligibility messages for Critical Peak Price

Message Variable	Message type	Message
PTR		Already Enrolled in PTR.

Program History

Program	Enrollment Requested Date	Enrollment Date	De-Enrollment Date
Critical Peak Price	12/01/2015	12/02/2015	12/28/2015

Enrollment Center Components

Participating program:-

- ✓ All enrolled programs listed, with a one-click button to de- enroll, following de-enrollment step or prompts.
- ✓ “Program Status” Not a CSR drop-down, Just demonstrates possible statuses ex:- Enrollment Request , Enrollment Pending, Enrollment rejected.
- ✓ Enrollment request date and Actual Program enrollment date
- Available program
 - ✓ Hyperlinks provide one-click access the program information.
 - ✓ Hyperlinks provide one-click access to enroll, following enrollment step.
- Eligibility Messages
 - ✓ More customer- specific eligibility details (ex:-de- enrollment from another program).
- Program History
 - ✓ Enrollment History can be maintained, to build process/ system eligibility rules.

Enrollment Center

- Before displaying the enrollment center, Eligibility check is performed on the programs to check whether the programs are eligible or not
- By implementing this solution the CSRs will require minimal effort in enrolling/de-enrolling a customer into Energy efficiency programs
- CSR will also achieve greater visibility into the customer's program participation.

Enrollment Center

The screenshot shows the 'Enrollment Center' web application. On the left is a blue sidebar with navigation links. The main content area is titled 'Enrollment Center' and contains several sections. A 'Pre-Pay' link in the 'Available Programs' table is circled in red. A modal dialog box titled 'Pre-Pay -- Webpage Dialog' is open in the center, displaying information about the Pre-Pay program. The dialog text states: 'The PrePay program allows eligible customers to pay for their energy consumption before they use it instead of at paying at the end of the month in one large bill. Customers are required to pay in advance and keep their PrePay balance above \$0.00 for their power to remain on. Participants in the PrePay program are billed the same price per kWh as a standard residential customer. Additionally, customers who chose to participate are offered greater flexibility to manage their energy bill with exclusive access to online tools, payment methods and daily communication from the company.'

Once enrolled on PrePay a minimum of \$30.00 dollar payment is required within 5 days of enrollment. Failure to make this payment within 5 days will result in a turn off. You will receive notices when balance amount is approaching \$0.00. Keeping you balance amount above \$0.00 will prevent disconnection.

You can view your usage and process payments via visiting www.new.consumersenergy.com or by phone at 800-447-5050.
