[ASUG Mission

To facilitate connections among the SAP ecosystem that are interesting and fun in order to continually expand our community, whose members are bound together by real experiences, and who together enable strong business results and real competitive advantage for all who choose to participate.

[ASUG Annual Conference

ASUG Community Focus 2011: CRM, EAM, PLM, and SCM

COLLABORATE. INNOVATE. INFLUENCE.

November 15-16, 2011

Hilton Anaheim

Anaheim, CA

Collaborate with your peers, innovate with new ideas, and influence the future of SAP solutions in the areas of customer relationship, enterprise asset, product lifecycle, and supply chain management.

Submit abstracts for the conference to ASUG. Watch the ASUG website for more details.

Customer Connection as part of Influencing

Customer Connection Process & Tools

Summary & Call for action

[Customer Connection – Our Commitment Easy Adoption to rapidly benefit

Easy deployment

- Ensure minimal installation time
- Separate deployment for single improvements
- Reduce testing scope and effort to a minimum (test tools and procedures)

No Side Effects

All functional enhancements behind switches
No incompatible changes

No Dependencies

- Improvements are independent from each other
- Later improvements must work with predecessor and with the Core
- New objects/code are isolated from Core objects

Ease of Adoption

Upgrade Protection

- No loss of functionality (independent from SAP customers maintenance strategy)
- Ensure full availability in newest EHP

Maintainability

- No coupling to Corrections, Security Patches
- Minimize conflict resolution efforts (also with customer coding)

[Customer Connection Call Center Efficiencies

More than 15 Improvement Requests already existing!

Existing Improvement Requests in Idea Place:

- Account Identification & Creation
- Premise Overview
- Integration of DQM (Data Quality Management)
- Interaction Records:
 - Improved visibility in IC
 - Enhanced search in IC
- Meter Reading in IC
- Enhanced automatic owner move-in process

Idea Place – Action I: Review & Comment on Improvement Requests

Interaction records: Quick overview on identification screen

by Michael Ernzerhoff on 07.10.2011
Status: Identified

[Base Release for The Improvement Request]
tbd

[Description of the Current Situation]
In the CRM Interaction Center, the agent needs to navigate to the Interactions tab of the Account Overview, to display the most recent interaction records of an account.

[Detailed Description]
Improvement Request Owner: N.N.
A contact center agent identifies a business partner, and gets immediately an overview of most recent interactions. The system displays corresponding interaction records on a new table on the identification screen, and allows fast navigation to more details.

Enter a comment and
click on Add Comment.

- Important Note: Use *Add Comment* if you are interested in becoming Improvement Request Owner
- → We need an owner for each improvement request!

[Idea Place – Action 3: Vote for Improvement Requests

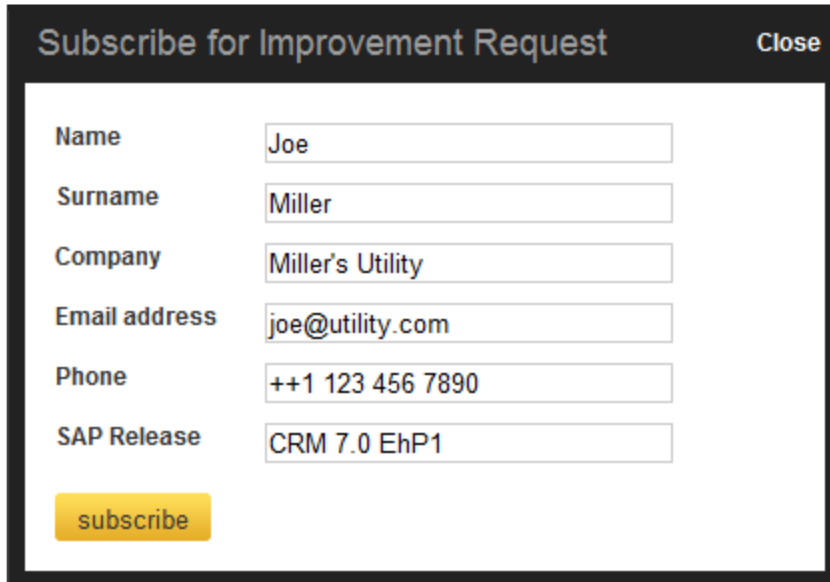

- ☐ Voting is used for Improvement Request prioritization.
- ☐ However, a minimum of five subscribed customers is prerequisite to consider the Improvement Request for development.
- ☐ Only customers should vote for an Improvement Request
- ☐ Positive or negative voting on an Improvement Request is possible.

[Idea Place – Action 4: Subscribe for Improvement Requests

- ❑ By subscribing to an Improvement request, customers indicate that they are planning to use the improvement productively, after it is made available by SAP.
- ❑ Improvement Requests must have a minimum of five companies subscribed to implement the solution prior to SAP considering the Improvement Request.
- ❑ To subscribe for an Improvement Request, use the subscribe button
